

SUMMARY

Senior Scrum Master and Agile Delivery Lead with proven experience in driving end-to-end project execution for IoT and Smart Home products. Skilled in facilitating Agile processes, aligning cross-functional stakeholders, and enabling data-driven decision-making to accelerate delivery. Expert at integrating Agile principles within hardware-software ecosystems to improve predictability, reduce release cycles, and enhance customer experience.

WORK EXPERIENCE

QORVO INC, SENIOR SCRUM MASTER

Aug 2023-Present | Zele, BELGIUM

- Leading Agile delivery for IoT and Smart Home connectivity products built on BLE, Zigbee, and Matter protocols.
- Partnered with global product owners, hardware, and firmware teams to deliver certified, interoperable smart-home modules aligned with CSA/Matter compliance.
- Drove Agile transformation initiatives, reducing release cycles from 3 weeks to 2 through bottleneck elimination and lean workflow optimization.
- Improved sprint predictability by 20% via data-driven retrospectives and performance dashboards in JIRA.
- Mentored Scrum Masters and engineers in Agile principles, fostering team autonomy and continuous improvement culture.
- Supported launch-readiness for smart-lighting and home-automation solutions, coordinating cross-team dependencies and customer integration testing.
- Prioritized and managed incoming customer issues to prevent disruption of planned deliverables.
- Applied problem-solving and root-cause analysis tools (Ishikawa, 5 Whys, PDCA) to sustain delivery excellence and mitigate product risk.

ALCATEL LUCENT ENTERPRISE, TECHNICAL LEAD/SCRUM MASTER

July 2019-Jan 2022, INDIA

- Guided multiple Scrum teams handling enterprise network and communication solutions; reduced defect resolution time by 50%.
- Drove Agile ceremonies, prevented SLA violations, and increased customer satisfaction through proactive risk mitigation.
- Mentored junior Scrum Masters and developers to strengthen organizational agility and delivery maturity.

ALCATEL LUCENT ENTERPRISE, SOFTWARE DEVELOPER

July 2014-June 2019, INDIA

- Developed and enhanced enterprise software solutions across complete SDLC; contributed to system scalability and code quality through continuous-improvement practices.
